**DETAILED ACTION*****Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a method of reducing the sulfur content of a liquid catalytically cracked petroleum fraction comprising catalytically cracking a petroleum feed fraction in the presence of an equilibrium cracking catalyst and a product sulfur reduction catalyst which comprises a porous molecular sieve having a metal component which is within the interior pore structure of the molecular sieve and which comprises vanadium in an oxidation state greater than zero in a matrix comprising alumina or silica-alumina with clay. The prior art of record does not disclose an FCC process as described by applicant wherein the equilibrium catalyst is recycled to the cracking zone to contact further quantities of heavy hydrocarbon feed, the improvement comprising reducing the sulfur content of a gasoline portion of the liquid cracking products, by catalytically cracking the feed fraction at elevated temperatures in the presence of a product sulfur reduction catalyst which comprises a porous molecular sieve having a metal component which is within the interior pore structure of the molecular sieve and which comprises vanadium in an oxidation state greater than zero in a matrix comprising alumina or silica alumina with clay. The prior art of record also does not disclose a sulfur reduction process utilizing a catalyst composition produced by introducing vanadium into a catalyst composition comprising a zeolite in a matrix comprising alumina or silica-alumina with clay, to exchange the vanadium onto the zeolite in a valence state greater than zero, calcining the catalyst composition to form a calcined catalyst composition and catalytically cracking the petroleum feed fraction containing the

organosulfur compounds at elevated temperatures in the presence of the calcined catalyst composition.

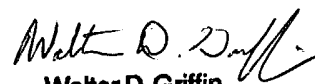

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Arnold, Jr. whose telephone number is 571-272-1443. The examiner can normally be reached on Monday-Thursday 8:30 AM-6:00 PM; Fridays from 8:30 AM-5:00 PM with alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
